

Dear Truck Owner / Driver,

The classic Eminox exhaust is available today...

- Updated and re-engineered for use on modern vehicles
- Designed for all after-treatment equipped trucks, including Euro IV, V and VI
- Giving you the iconic look of the stainless steel Eminox stack, yet still compliant with emissions regulations
- Creating extra chassis space and ground clearance
- Directing exhaust gases overhead - safer for you and your staff when working in close proximity to your vehicles
- Offering also tail pipes and side pipes, tailor-made to meet your vehicle's specific requirements

Contact us for an informal and no-obligation chat, or advice on modifications to commercial exhaust systems.

We look forward to hearing from you and helping you to customise your truck.

The Eminox Team

Eminox. The Original.
